Conferences that Inspire Solutions

To Whom it may Concern:

The Johnson Foundation has been using Affordable Tree Care exclusively for all our tree trimming, felling and arboring for the past five years. We have found their work to be of excellent quality and the on-site crews are always professional and practice strict safety practices. I have never seen any crew member without their hard hat or body protection when it was required while performing their tasks. We find that to be an important aspect of the contractors we hire.

The crews also take every precaution to protect the surrounding turf and landscape around the work area and provide a thorough and complete cleanup when done. The Johnson Foundation would recommend Affordable Tree Care to any organization looking for a professional arborist who will give you a quality job at a reasonable price.

Don Guzzetta,
The Johnson Foundation
